Italian craftsmanship

Founded in 1943 along the serene banks of the Oglio River in Northern Italy, our manufacturing facility swiftly emerged as a pioneer in passive security systems. Over the years, we have built a solid reputation for delivering security solutions characterized by exceptional craftsmanship and innovative design. In response to the growing demand for bespoke security solutions among high-net-worth individuals and royal families, we proudly introduced the Luxanora brand.

Luxanora embodies the perfect fusion of elegance and robust protection, tailored to meet the sophisticated needs of an elite clientele. Our unwavering commitment to excellence drives us to integrate cutting-edge technology with exclusive designs that surpass industry standards. At Luxanora, we strive to preserve the artisanal heritage that defines our legacy while providing unparalleled security solutions that exemplify sophistication and style.

We specialize in crafting bespoke, made-to-measure safes that combine cutting-edge security with timeless elegance. Each safe is meticulously designed and handcrafted to meet the specific needs and aesthetic preferences of our discerning clientele. Whether you require tailored dimensions, unique materials, or personalized features, our expert artisans and engineers collaborate with you to create a masterpiece that seamlessly integrates with your interior while offering unrivaled protection for your most valuable possessions. From high-end finishes to intricate design details, every safe is a reflection of both your personal style and our commitment to superior craftsmanship.

We approach safes differently. Our artisans embody a distinctive philosophy that sets us apart from the competition. Rather than creating beautiful furniture that conceals low-quality safes, as many others do, or producing high-security safes with dull, repetitive designs, we deliver a unique blend of exceptional security and striking aesthetics, all backed by the highest certification standards. The outcome is a one-of-a-kind product that is not only visually appealing but also crafted from premium materials and engineered to meet the highest security benchmarks. Our designs are unmistakably unique and cannot be confused with any other on the market. We believe our clients are different and deserve a product that breaks free from the masses, reflecting their individuality and discerning taste.

1943

A safe fit for a Queen

REGINA

GHOST PHANTOM

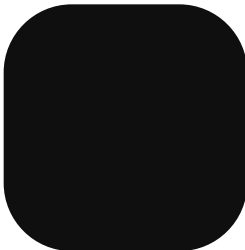

THE PHANTOM SAFE (Guns Storage)

The innovative smart glass feature of the Phantom safe transforms it into a stunning display case. With a simple touch of the remote control, your treasures remain concealed when privacy is needed and are revealed in crystal-clear clarity when desired. The interior is available in two configurations: one designed for both rifles and handguns, and another for rifles only (accommodates up to 7 rifles). Both options include drawers for ammunition storage.
